Full Professional Proficiency

WORK EXPERIENCE

Software Developer
Virtual Lab Development IIT Roorkee

07/2020 - 09/2020
Achievements/Tasks

- I worked with a team of 5 members to develop virtual simulation of "Hybrid Analog and Digital Electronics Lab" in collaboration of MJP Rohilkhand University and Virtual Lab Development IIT Roorkee

EDUCATION

B.Tech in Computer Science
Mahatma Jyotiba Phule Rohilkhand University,Bareilly (23006)

08/2018 - Present

Senior Secondary (XII), Science
Global Inter Collage Narayanpur Tanda Rampur

07/2016 - 07/2018   *CGPA: 7.4/10*

PROJECTS

MyShopingMall
- -E-Commerce Website made with the help of Django Framework. For backend, I have used Django Framework with database Sqlite3 For Frontend, I have used mixed concepts of HTML, CSS , Javascript and BootStrap Inspired From : Amazon and Flipkart

NotesApp
- -Quickly capture what's on your mind and get a reminder later at the right place or time. NotesApp makes it easy to capture a thought or list for yourself, and share it with friends and family. Inspired From : Google Keep , Samsung Notes and Microsoft notebook. I have used flutter for front-end and dart language for back-end with signin and login authontigation. I have also used Firebase database for storing data.

Covid19 using Machine Learning
- I had created this project for a competition organised by our institute during lockdown. I have used HTML, JavaScript, CSS for front-end and Django for backend with mysql database.

Personal Assistant
- We all know that Amazon has its Alexa voice assistant. Apple has Siri. And, if you have an Android phone, a tablet or a Google Nest speaker (known before as Google Home), then Google Assistant is the powerful artificially-intelligent companion that lives in your home with you. Inspired all things, I decided I'm create our personal assistant.
